

# IS INEFFICIENT MOBILE WORKING DAMAGING YOUR BUSINESS?

Mobile working is now the norm, yet:

**80%**

of workers feel it's harder to work in mobile teams.<sup>1</sup>

**33%**

of workers cite poor communications as their greatest challenge when mobile.<sup>1</sup>

Not enabling mobile workers can carry a significant cost...

## Common mobile worker complaints:

- Lower job satisfaction** as don't have access to the right tools for the job.
- Excluded** by missing out on important communications.
- Frustrated** at using tools which aren't designed for a mobile environment.

## Businesses suffer through:

- Poor customer service** as mobile workers often can't be easily contacted.
- Important decisions delayed** as they don't have access to the right information.
- Security breaches** due to employees using non-approved apps.
- Loss of valuable information** when an employee leaves data stored on a personal phone.

**79%**

of knowledge workers now work in dispersed teams.<sup>2</sup>

**60%**

of employees' time is spent away from their desk.<sup>3</sup>
